## V. Supplementary information

> Supplementary information on accounting standards
> The IDOM Group has examined the possibility of adopting IFRS for financial reporting from the year-end of the fiscal year ended February 28, 2017, for the purpose of improving comparability of financial information in international capital markets. However, with comprehensive considerations on various factors and impacts on the Group's earnings from estimated costs to occur in relation to adopting IFRS, the Group has concluded not to adopt IFRS for the time being and continue to report financial statements based on Japanese GAAP for a time.

This presentation includes forward-looking statements based on current expectations of future events and are subject to risks and uncertainties. Actual results may differ materially from those expressed or implied by such statements due to economic conditions and other factors.

## I . Summary of results

|  | FY 2017 <br> Mar - Aug |  | FY 2018 Mar - Aug |
| :---: | :---: | :---: | :---: |
| Number of cars purchased* | 87,998 cars | $\Rightarrow$ | 83,027 cars |
| Number of cars sold ${ }^{\text {* }}$ |  |  |  |
| Wholes | 51,877 cars | $\square$ | 51,262 cars |
| Retail | 45,421 cars | $\square$ | 62,979 cars |
| SG\&A expenses (Non-consolidated) | 22,487 million yen | - | 24,132 million yen |
| Operating income (Non-consolidated) | 2,167 million yen |  | 2,709 million yen |
| Operating income (Consolidated) | 2,172 million yen |  | 2,528 million yen |

[^0]
## II. Main initiatives

- Model transformation to start display sales
- The target stores planned in April completed the model transformation by the end of August
(The original Gulliver stores which had primarily focused on purchasing)

- Continuing to open new stores under the medium-term business strategy
- Progress is in accordance with the plan set at the beginning of the year

Gulliver stores display sales model transformation

*Dolphinet: Online car sales system
Gulliver stores adopted display sales model to raise its profitability. Under this model, Gulliver stores display and sell lower price cars in addition to the conventional operation of purchasing and selling through Dolphinet. Model transformation was accelerated in 2Q and completed by the end of August at all the targeted stores planned in April.

## Store openings

Number of directly managed stores

Store openings (March - Augst)

Store openings (March - Augst)

## III. Performance analysis

[Consolidated] Analysis of changes in operating income for 2Q

## FY 2017 2Q [Consolidated] operating income 2,172 million yen

FY 2018 2Q [Consolidated] operating income 2,528 million yen

Impact on
operating income

1Display sales model implemented to Gulliver stores (Per-unit profit set lower, retail car sales increased)
2 Increases in the number of display sales stores
(New store costs increased, advertising costs for purchasing slightly decreased)
4 Australian subsidiary
(Operating income declined)

# 1 Gulliver display sales model <br> 2 Display sales stores 

3 SG \& A expenses
4 Australian subsidiary

## Retail car sales

Total number of retail cars sold at all directly managed stores (6 months)

Total retail gross profits expanded
Gross profit per unit

289 stores

Number of retail cars sold

Gross profit per unit

190 stores

Number of retail cars sold

Gulliver stores: Strategic price change (lowering unit price) increased the unit sales. Gross profit per unit decreased but the total gross profit increased YoY.
Display stores: Unit sales grew on the back of the increase in the number of stores. Resulted in gross profit per unit to increase YoY.

1 Gulliver display sales model
2 Display sales stores
3 SG \& A expenses
4 Australian subsidiary
(unit: million yen) $\quad$ SG \& A $\quad$ non-consolidated YoY change

Factors for the YoY change
[1] Store operation costs
Increased by a growth in the number of stores

## [2] Advertising for

 purchasing.Slightly decreased

## [3] New service costs

## Decreased

[^1][2] The advertising costs for purchasing in the second quarter (Jun-Aug) slightly decreased YoY.
[1] Increase in the store operation costs and [3] decrease in new service costs are in line with the plan.

1 Gulliver display sales model
2 Display sales stores
3 SG \& A expenses
4 Australian subsidiary

Australian subsidiary, Buick Holdings (DVG)

New vehicle market in Western Australia (\% change YoY )

* Buick Holdings (DVG) operates multi-brand new car dealerships in Western Australia

Operating income and operating income after deduction of amortization of goodwill
(unit: million yen)

Operating income
Operating income after deduction of amortization of goodwill

## Australian subsidiary, Buick Holdings (DVG) second half plan

Operating income
(unit: million yen)

Cost reduction (lay-off) conducted in 2Q. Lay off costs of 38 million yen were recorded as an extraordinary expense. Improvement in operating income is expected from 3Q. After 3Q, in addition to the cost reduction, initiatives undertaken to increase sales is expected to contribute in profit improvement.

## Growth in retail and the beyond

## Retail capability is becoming IDOM's solid strength

Number of retail cars sold by IDOM

Number of cars sold in Japan by manufactures
(20,000 to 200,000 unit sales, March 2016 to February 2017)
