Cash flow from investing activities	(2,844)	(2,283)	(5,791)
Cash flow from financing activities	1,886	(875)	(1,427)
Cash and cash equivalents at end of period	4,599	6,300	4,130

4) Items for scope of consolidation and application of the equity method

Number of consolidated subsidiaries: 6; Number of non-consolidated subsidiaries under the equity method: 0; Number of affiliated companies under the equity method: 0; Changes in the scope of consolidation and companies accounted for by the equity method: 3 companies newly consolidated.

3. Forecasts for the fiscal year ending February 28, 2006 (March 1, 2005 to February 28, 2006)

Millions of yen, rounded down

	FY ending February 28, 2006
Sales	181,900
Ordinary income	10,300
Net Income	5,000
Earnings per share (¥)	502.73

Forecasts and forward-looking statements in this document are based on a number of assumptions and beliefs made by management in light of information currently available. Actual financial results may differ materially depending on a number of factors, including economic conditions, legislative and regulatory developments, delay in new product or service launches, and pricing and product initiatives of competitors.

1. Group Overview

The Group is composed of the Company and 8 subsidiaries of the Company and is engaged in the business of sales of used cars and franchising operations.

A systematic diagram of the Group's businesses is presented below:

2. Management Policy

1. Basic management policy

Gulliver has adopted 'Growing together' as its corporate philosophy and, under the principle of coexistence and mutual prosperity, the company is striving to become a corporation that is well regarded by community and society as well as all those involved with the Group, including customers, employees, partners and shareholders. Under this philosophy, Group management is making every effort to create an attractive company that is worthy of support from customers. We also aim to bring about a revolution in the distribution of cars, and to support the 'car life' of our customers.

2. Basic policy concerning distribution of profits

We have identified the return of profits to investors as an important management issue and also place emphasis on our dividend payout ratio. We consider the return of profits appropriate to results to be a fundamental management principle.

With the intention of further increasing profits and increasing corporate value, as well as strengthening competitiveness and improving services, retained capital will be used to carry out effective and efficient investments in such areas as the launch or relocation of directly-owned stores and replacement stores (re-locating or launching at new locations), the strengthening of internal infrastructure, and the development and training of personnel.

3. Management targets

We consider return on equity (ROE) to be an important management financial indicator and aim to maintain ROE above 10% over the medium to long term. Further, we are aiming to achieve a Gulliver Group annual purchase volume of one million cars.

4. Mid- to long-term management strategy

We have set an annual purchase volume of one million cars as a specific objective, with the aim of securing a dominant market share in the used car industry. We feel that, in order to realize our goal of bringing about a revolution in the distribution of cars, this is the volume necessary to ensure a dominant number one position in the industry. In order to achieve this goal, the following measures are being taken:

- Creating a low cost operation
- Improving productivity at each store
- Increasing launches of directly operated stores
- Enhancing brand power and recognition
- Improving service quality and customer satisfaction
- Maintaining personnel and strengthening the development and training structure
- Expanding sales channels, utilizing 'Dolphinet System' and 'GAO! Auction'

5. Tasks ahead

In Japan's very large market for used vehicles, where eight million vehicles (including buses,

trucks, etc.) are registered each year, there are a range of issues that must be addressed by the Group in order to achieve a dominant market share and improve profitability. As part of our strategic marketing activities, these include further enhancing our brand power, broadening our customer base through improving brand recognition in a wide range of age groups, making qualitative improvements in service and customer satisfaction, and strengthening operations through personnel development and training.

6. Corporate governance and related initiatives

Basic policies regarding corporate governance

In order to maximize corporate value, we are working to enhance corporate governance focused on the board of directors and auditing system.

In a rapidly changing management environment, we have rationalized the board of directors and introduced an executive officer system. In addition, we have adopted a functional organizational system that places emphasis on flexibility, and at the same time we are introducing measures such as the promotion of organizations and projects that cross divisional boundaries to provide dynamism to the organization.

We intend to continue taking active measures to further enhance corporate governance.

Overview of corporate governance initiatives

(1) Management administration bodies and other corporate governance systems related to Group management decision making, execution and auditing

We will continue to employ an auditor system, and currently have three auditors, two of which are external auditors.

In order to maintain strategic flexibility in a rapidly changing business environment, in 2001 we reduced the number of directors with the aim of speeding up management decision making and, at the same time, introduced an executive officer system to clarify business execution responsibilities. We have strengthened our management monitoring systems through the improvement of our internal legal division and the establishment of internal audit systems as well as receiving advice and guidance from external lawyers and accounting auditors.

In September 2005, under our new framework, we established a Compliance Committee and created a compliance framework to strictly and effectively adhere to all legal obligations. Further, we are currently involved in the establishment of a crisis management framework to handle latent internal and external risks, and are strengthening our IR and PR structure in order to cope with unforeseen occurrences.

(2) Overview of personal, capital or business relationships between Gulliver and its external directors and auditors and any other interests

Neither of the two external auditors currently employed by the company have any personal relationship with other auditors or directors, nor does either have any special interests within the

Group.

(3) Overview of measure taken to enhance corporate governance in the 12 months ended August 31, 2005.

Recognizing that each director plays an important role as a member of the management decision-making body, we have strengthened the functions not only of the board but also of a range of administrative meetings, while also clearly delegating responsibilities and defining authorities at executive officer level and below, with the aim of continually improving the flexibility and capability of our management.

In addition, as stated above, in September 2005, we established a Compliance Committee and are strengthening our investor relations and corporate communications structure.

3. Operating Results and Financial Position

(1) Outline of consolidated interim operating results

Gulliver operates 264 directly operated stores involved in the purchase and sale of cars (16 more than at the end of the previous fiscal year) and has 230 affiliated stores (19 fewer than at the end of the previous fiscal year). In total, Gulliver operates 494 stores (three fewer than at the end of the previous fiscal year). In our directly owned store operations, we opened new branches and replacement stores (relocating or launching new stores), and through improving brand recognition and marketing activities were able to increase the number of customers per store and also the number of vehicles handled. The Company has contracted Hideki Matsui of the New York Yankees as its campaign personality and is undertaking a comprehensive marketing and public relations activities. Although employee numbers were increased to a level higher than initially expected at the beginning of the period, staff training was insufficient in some respects and the efficiency of investments in marketing and personnel costs was somewhat impaired. In affiliated stores, even though the number of stores decreased slightly, they continued to perform well in numbers of cars handled.

We are continually engaged in improving the capabilities of our personnel, and in line with the increase of our store network have been recruiting and focusing training efforts on employees at new directly operated stores employees. Our efforts to improve our strategic position include a range of training methods, including OJT (on-the-job training), and we are continuing to adopt measures aimed at improving our sales and management approach.

Vehicles handled by Gulliver are sold quickly, with an average timeframe of only one week to ten days required to achieve a sale via channels that include auction sites throughout Japan, the Company's unique on-screen selling system 'Dolphinet', and GAO! Auction, the internet based real-time auction aimed at used-car dealers. GAO! Auction was launched in January 2005 and as of August 2005 had around 18,000 members. It is also performing well, with a closure rate of around 40%.

There are currently four subsidiaries of Gulliver International: G-Trading Co., Ltd., the second hand truck, bus and construction vehicles purchase, sales and export company (listed on JASDAQ in November 2006); G-One Financial Service Co., Ltd., the consolidated auto-loan and financial business subsidiary; Gulliver Europe Ltd., which aims to limit risks in future business activities; and Hakobo Co., Ltd. which was registered in June 2004 and is mainly involved in the car transportation business. The Group also contains Gulliver USA, INC., a non-consolidated affiliate that is involved in the purchase and sale of second-hand cars in the U.S.

At G-Trading, the dealer network was improved and relationships with customers were strengthened through initiatives such as expanding the workforce and creating new branches in Tokyo and Osaka in March. G-Trading is also striving to broaden marketing outlets overseas. However, ordinary income decreased in the interim period under review. Although sales revenues increased due to an increase in the number of relatively new cars with a high unit price

that were handled, purchase prices also increased and the continuing high price of fuel reduced the number of vehicles handled. Profit margins fell due to the higher proportion of older vehicles sold.

During the interim period under review, G-Trading began consolidated accounting, with subsidiary company Samurai Motors Co., Ltd. and joint-stock company G-Bus., Ltd. included in the scope of consolidation.

Consolidated subsidiary G-One Financial Services Co., Ltd. ("G-One") recorded an ordinary loss for the interim period under review. During the period, G-One began full-fledged sales of automobile loan products. As a result, from the current interim period Gulliver has been receiving loan rebates from G-One for automobile loan contracts. Previously, Gulliver received rebates from outside companies, through the provision of loan services from other companies.

Income from automobile loans sold by G-One (a certain proportion of the total credit provided) is recorded on a deferred basis, whereas rebates are recorded as a one-time expense, and in the interim period under review this led to a loss at the ordinary income level. We had expected that in the case of securitization of loan receivables, income could be recorded as a lump sum, but the Company now understands that recording income on a deferred basis is the appropriate accounting treatment.

The business development of G-One is proceeding steadily, and as of August 31, 2005 the total amount of deferred financial income had reached approximately ¥900 million.

Hakobo Co., Ltd. began operations in earnest from this period, with expenses relating to business establishment resulting in an ordinary loss.

As a result of the factors noted above, consolidated net sales for the interim period under review increased 31.1% (¥20,629 million) to ¥86,783 million and operating income decreased 10.6% (¥416 million) to ¥3,490 million. Ordinary income decreased 11.3% (¥443 million) to ¥3,463 million and net income decreased 25.4% (¥559 million) to ¥1,633 million.

Performance by Segment

Sales of used automobiles

Net sales in this business area increased 32.4% (¥20,229 million) from the previous interim period to reach ¥82,567 million, and operating income increased 26.0% (¥1,008 million) to ¥4,878 million.

Although there was a slight decline in the average unit price and gross profit margin per vehicle sold during the interim period under review, there was a steady increase in the number of vehicles handled. With continued business development, SG&A expenses are increasing, but operating income is increasing in line with the rise in net sales.

Franchising business

Net sales in the franchising business increased 10.4% (¥399 billion) to ¥4,215 million compared to the previous interim period, while operating income decreased 53.8% (¥902 million) to ¥774 million.

Due to the decrease in the number of Gulliver affiliated stores, revenue from this area of the business decreased. However, the development of GAO ! Auction and GiPAS resulted in higher revenue from commissions and subscriptions, even though the operating expense ratio increased.

(2) Financial position

For the interim period of the fiscal year ending February 28, 2006, cash flow from operating activities and financing activities was positive. Cash flow from investment activities was negative, while overall cash flow was a positive figure of ¥304 million. The balance of cash and cash equivalents as of August 31, 2005 was ¥4,599 million.

Cash flow from operating activities

Cash and cash equivalents ("cash") generated from operating activities was ¥1,261 million. Principal components of this included interim net income before adjustment for taxes of ¥3,255 million, a decrease in receivables of ¥3,871 million and an increase in inventories of ¥958 million.

Cash flow from investment activities

Net cash used in investment activities was ¥2,844 million. The principal factors contributing to this result were investment in the opening of new directly operated stores and in internal systems.

Cash flow from financing activities

Net cash produced from financing activities was ¥1,886 million. This was primarily due to an increase in loans.

Trends in cash flow-related indices

	Interim period of FY ended Feb. 2004	Fiscal year ended Feb. 2004	Interim period of FY ended Feb. 2005	Fiscal year ended Feb. 2005	Interim period of FY ending Feb. 2006
Equity ratio (%)	64.2	59.3	61.0	46.7	44.5
Equity ratio based on market price (%)	231.9	338.6	438.5	443.4	357.7
Debt service coverage (years)	0.4	0.1	0.8	1.4	6.5
Interest coverage ratio (times)	346.5	604.2	181.4	192.8	92.4

Notes: 1. Calculation method for indices:

- * Equity ratio = total shareholders' equity / total assets
- * Equity ratio based on market price = market capitalization / total assets
- * Debt service coverage ratio = interest-bearing debt / operating cash flow
- * Interest coverage ratio = operating cash flow / interest payments

2. All indices are calculated from consolidated financial results figures.

3. Market capitalization = market price on last trading day of period x total shares outstanding at end of period (excluding treasury stock)

(3) Outlook for the full year

Gulliver intends to pursue higher profits, seeking to increase the number of vehicles handled by opening new stores and growing customer counts, and pursuing low cost operations.

With respect to the outlook for the full year ending February 2006, there have been no changes to the non-consolidated forecasts announced on April 19, 2005, which were for net sales of ¥167,200 million, ordinary income of ¥11,100 million and net income of ¥6,100 million.

Consolidated forecasts for the year ending February 2006, taking into account the performance outlook for consolidated subsidiaries, are for net sales of ¥181,900 million, ordinary income of ¥10,300 million, and net income of ¥5,000 million.

Note: The above figures do not include consumption tax.

Material Items Forming the Basis for the Preparation of the Interim Consolidated Financial Statements

Item	March 1, 2005 - August 31, 2005	March 1, 2004 - August 31, 2004	March 1, 2004 - February 28, 2005
1. Items relating to the scope of consolidation	<p>(1) Number of consolidated subsidiaries: 6 G Trading Co., Ltd. G One Financial Service Co., Ltd. Hucobo Co., Ltd. Samurai Motors Co. G-Bus., Ltd.</p> <p>(Change in scope of consolidation) Of the above Hucobo Co., Ltd. has been included in the scope of consolidation as its importance to the interim financial statements has increased.</p> <p>(2) Non-consolidated subsidiaries: Gulliver USA Inc. and Carbross</p> <p>Reasons for exclusion from consolidation: Gulliver USA, Inc. and Carbross are small and their total assets, sales, interim net income and retained profit do not significantly influence the interim consolidated financial statements.</p>	<p>G Trading Co., Ltd. E Investment Co., Ltd. Gulliver Europe Ltd.</p> <p>(2) Non-consolidated subsidiaries: Hucobo</p> <p>Reasons for exclusion from consolidation: Hucobo is small and its total assets, sales, interim net income and retained profit do not significantly influence the interim consolidated financial statements.</p>	<p>(1) Number of consolidated subsidiaries: 3 G Trading Co., Ltd. G One Financial Service Gulliver Europe Ltd. Note: E-Investment Co., Ltd. has changed its name to G One Financial Service Co., Ltd.</p> <p>(2) Non-consolidated subsidiaries: Hucobo Co., Ltd. and Gulliver USA Inc.</p> <p>Reasons for exclusion from consolidation: Hucobo and Gulliver USA Inc. are small and their total assets, sales, interim net income and retained profit do not significantly influence the interim consolidated financial statements.</p>
2. Application of the equity method	<p>Non-consolidated subsidiaries and affiliates to which the equity method is not applied: Gulliver USA Inc. and Carbross</p> <p>Reasons for not applying the equity method: The effect of the companies on the interim net income and retained profit is immaterial and their overall importance is low.</p>	<p>Non-consolidated subsidiaries and affiliates to which the equity method is not applied: Hucobo</p> <p>Reasons for not applying the equity method: The effect of the company on the interim net income and retained profit is immaterial and its overall importance is low.</p>	<p>Non-consolidated subsidiaries and affiliates to which the equity method is not applied: Hucobo and Gulliver USA Inc.</p> <p>Reasons for not applying the equity method: The effect of the companies on the interim net income and retained profit is immaterial and their overall importance is low.</p>

	March 1, 2005 - August 31, 2005	March 1, 2004 - August 31, 2004	March 1, 2004 - February 28, 2005
3. Items relating to the (interim) settlement days of consolidated subsidiaries	Of the consolidated subsidiaries, Gulliver Europe Ltd. and Samurai Motors Co. have interim settlement dates (June 30) that differ from the Consolidated Interim Settlement Date (August 31). In preparing the Consolidated Interim Financial Statements, as the gap between the settlement dates does not exceed 3 months, consolidation is performed based on the said subsidiaries' interim financial statements. For material transactions occurring between the interim settlement dates necessary consolidation adjustments are made.	Of the consolidated subsidiaries, Gulliver Europe Ltd. has an interim settlement date (June 30) that differs from the Consolidated Interim Settlement Date (August 31). In preparing the Consolidated Interim Financial Statements, as the gap between the settlement dates does not exceed 3 months, consolidation is performed based on the said subsidiary's interim financial statements. For material transactions occurring between the interim settlement dates necessary consolidation adjustments are made.	Of the consolidated subsidiaries, Gulliver Europe Ltd. has a settlement date (December 31) that differs from the Consolidated Settlement Date (end February). In preparing the Consolidated Financial Statements, as the gap between the settlement dates does not exceed 3 months, consolidation is performed based on the said subsidiary's financial statements. For material transactions occurring between the settlement dates necessary consolidation adjustments are made.
4. Items relating to accounting treatment (1) Valuation criteria and valuation methods for material assets	<p>1. Marketable securities Bonds intended to be held to maturity: Amortizing cost method (straight line)</p> <p>Other marketable securities Those with a market price: Valued by the market method based on the market price as at the interim settlement date. Valuation gains or losses are taken direct to capital and the book value is determined by moving average method.</p> <p>Those without a market value: The cost method using the moving average method Shareholdings in subsidiaries:</p> <p>2. Derivatives Market method</p> <p>3. Inventories A. Merchandise Vehicles: Actual cost method Other: Cost method under first in, first out method B. Supplies: Cost method under last purchase method</p>	<p>1. (4) Criteria for recording material reserves	<p>(i) Reserve for Doubtful Accounts To prepare for the losses occurring from bad loans, with respect to general claims the Actual Bad Loan Rate is applied. Specific claims, such as those where there are concerns on the probability of recovery, are assessed on an individual basis and estimated unrecoverable amounts are recorded.</p> <p>(ii) Reserve for Bonuses To prepare for the payment of bonuses to employees, amounts are recorded based on the estimated payment amount.</p>	<p>(i) Reserve for Doubtful Accounts As at left</p> <p>(ii) Reserve for Bonuses As at left</p>	<p>(i) Reserve for Doubtful Accounts As at left</p> <p>(ii) Reserve for Bonuses As at left</p>
(5) Treatment of material lease transactions	<p>Financing leases other than those lease assets whose title is deemed to pass to the lessee have been accounted for in accordance with methods applied to normal lease transactions.</p>	<p>As at left</p>	<p>As at left</p>

	March 1, 2005 - August 31, 2005	March 1, 2004 - August 31, 2004	March 1, 2004 - February 28, 2005
(6) Material hedge accounting	<p>(i) Method of Hedge Accounting According to Deferred Hedge Treatment (ii) Hedging Tools and Hedge Target Hedging Tools – Interest Rate Swap Hedge Target - Borrowings (iii) Hedging Policy Interest Rate Swap transactions are entered into for the purpose of hedging the risk of interest rate fluctuation on the borrowings and entered into for only the target obligations. (iv) Method of evaluating hedge effectiveness</p> <p>Target Cumulative market fluctuation of the hedge target and the hedge tool are compared during the period from the initiation of the hedge to the time of assessing the effectiveness and the evaluation is made based on the variance of the two values.</p>	<p>(i) Method of Hedge Accounting As at left</p> <p>(ii) Hedging Tools and Hedge Target As at left</p> <p>(iii) Hedging Policy As at left</p> <p>(iv) Method of evaluating hedge effectiveness As at left</p>	<p>(i) Method of Hedge Accounting As at left</p> <p>(ii) Hedging Tools and Hedge Target As at left</p> <p>(iii) Hedging Policy As at left</p> <p>(iv) Method of evaluating hedge effectiveness As at left</p>
(7) Other material items in the preparation of the consolidated financial statements	Accounting treatment for Consumption Tax Tax Exclusion Method is applied in the accounting treatment of Consumption Tax	Accounting treatment for Consumption Tax As at left	Accounting treatment for Consumption Tax As at left
5. Definition of cash in the consolidated statements of cash flow	Cash on hand, deposits that can be withdrawn as needed, and short term investments that are easily convertible into cash and that have low risk of fluctuation in value and whose maturities are 3 months or less at the date of acquisition	As at left	As at left

Changes in Accounting Treatment

March 1, 2005 - August 31, 2005	March 1, 2004 - August 31, 2004	March 1, 2004 - February 28, 2005
-----	<p>(Method of presentation of Gains from Sale of Courtesy Cars and Procurement Expenses for Courtesy Cars) In the previous consolidated fiscal year the acquisition expense and gains on sale of vehicles to be used as courtesy cars were presented as "Gains on Sale of Courtesy Cars" in Non-Operating Income but due to the fact that in many cases such cars were sold after use and in addition to a change in policy to actively market the vehicles in the same way as other used vehicles the number of cars sold has been increasing resulting in the increased materiality. Thus, the amount of the proceeds of such sales has been recorded in Sales while the cost of acquisition has been included in Cost of Goods Sold. The impact of the change is not material.</p>	As at left

Changes to presentation method

Interim period ended August 31, 2005	Interim period ended August 31, 2004
-----	<p>Display of Construction cooperation money Due to the large increase in Construction cooperation money, recorded in Investments and other assets this interim period, this amount has been recorded separately. Construction cooperation money this interim is ¥285 million</p>

Additional information

March 1, 2005 - August 31, 2005	March 1, 2004 - August 31, 2004	March 1, 2004 - February 28, 2005
<p>(Treatment of the tax based on business size portion of corporate taxes in the statements of income)</p> <p>Following the promulgation of 'Treatment of the tax based on business size portion of corporate taxes in the Statements of Income' (February 13, 2004, Corporate Accounting Standards Committee Practice Report 12), from this interim accounting period the proportionate amounts of corporation tax on value added and capital have been included in Selling, General and Administrative expenses. As a result Selling, General and Administration expenses increased by ¥58 million and operating income, ordinary income and income before taxes, etc. each decreased by ¥58 million.</p>	<p>-----</p>	<p>-----</p>
